If you send me a completed intake form within 2 or 3 days prior to your appointment I will try to have your complaint already drafted for your review at the interview.

If you are in Kentucky we will or we may file a lawsuit.

If your case is against a foreign manufacturer or Ford and we may ask you to pay a small filing fee. If your case involved GM or Chrysler we may directly submit your claim to the manufacturer.

If you are outside Kentucky we can directly negotiate claims with Chrysler and GM regardless of what state you are in

However,

1. We do not practice law outside Kentucky or the Federal Court in Southern Indiana. We are only licensed to practice law here. Even in Southern Indiana we normally limit ourselves to Bankruptcy matters.
2. We do not travel to other states to practice law or make appearances in any state we are not licensed in
3. We only negotiate directly with the manufacturer for you we do not provide any advise about the law in your state if you are from a state outside Kentucky or Indiana
4. You may need or want to consider the advise of a local attorney in your state. If we contract with you to represent you we will require you to sign that you understand that we only are negotiating for you and that we do not act as attorneys outside our home state.
